Welcome to your Practice Assessment Document (PAD)

Student responsibilities

This Practice Assessment Document is designed to support and guide you towards successfully achieving the criteria set out in the Standards for Pre-Registration Nursing Education (NMC 2010).

The PAD makes up a significant part of your overall programme assessment. It will need to be processed through formal University systems. Continuous assessment is an integral aspect of assessment in practice and you are expected to show evidence of consistent achievement. You should engage positively in all learning opportunities, take responsibility for your own learning and know how to access support. You will work with and receive written feedback from a range of staff including Practice Supervisors and Practice Assessors and you are required to reflect on your learning.

You are responsible for raising concerns with a nominated person in the practice setting in a timely manner. You should also alert staff to any reasonable adjustments that may be required to support your learning.

You should ensure you are familiar with your university assessment and submission processes for this document and contact the academic representative from your university, or refer to your university's intranet if you require support or advice on specific university procedures.

The Ongoing Achievement Record (OAR) is a separate document that summarises your achievements in each placement and with the main document provides a comprehensive record of your professional development and performance in practice.

You are responsible for the safekeeping and maintenance of the PAD. It should be available to your Practice Supervisor, Practice Assessor and Academic Assessor at all times when you are in placement together with the OAR. Alterations should be made in this document by crossing through with one line, with a signature and date.

You will have access to confidential information when in practice placements. The PAD should not contain any patient/service user/carer identifiable information. Contents must not be disclosed to any unauthorised person or removed, photocopied or used outside the placement or university.

People must be offered the opportunity to give and if required withdraw their informed consent to student participation in their care and staff in practice will provide guidance as required. Before approaching any patient/service user/carer for feedback you must discuss with your Practice Supervisor/Practice Assessor who will facilitate consent.

Practice Supervisor responsibilities (Registered nurse/midwife or other registered health/social care professional)

In many practice areas the student will be supported by a number of Practice Supervisors. Some areas may adopt a team based approach due to the nature of the experience.

As a Practice Supervisor you have an important role in supporting and guiding the student through their learning experience to ensure safe and effective learning. This includes facilitating learning opportunities including any reasonable adjustments the student may need to get maximum benefit from the placement. It is your responsibility to contribute to the student's assessment through the recording of regular feedback on their progress towards, and achievement of their essential skills clusters.

Specific feedback must be provided to the Practice Assessor on the student's progress.

Supervision in other placement areas (i.e. those areas where there are no health/social care registrants)

A range of staff can support student learning and have a vital role in student learning and development though may not be contributing formally to assessment of essential skills clusters.

However, these staff members are encouraged to support learning and can provide valuable student feedback within the PAD on the *Record of communication/additional feedback pages*.

Practice Assessor responsibilities (Registered Nurse)

As a Practice Assessor you have a key role in assessing and confirming the student's proficiency providing assurance of student achievements and competence. This includes facilitating learning opportunities including any reasonable adjustments the student may need to get maximum benefit from the placement. You will observe the student, conduct and record student assessments informed by student reflections, feedback from Practice Supervisors and other relevant people to confirm achievement. You will liaise with the Academic Assessor scheduling communication at relevant points.

Practice Assessors must have appropriate equivalent experience in the student's field of practice.

There are numerous elements requiring assessment in practice. One or more Practice Supervisors can contribute to the assessment of some of the essential skills clusters in discussion with you, but they must be working in their scope of practice.

When assessing the student, you should take into account sources of evidence that encompass knowledge, skills, attitudes and the views of those receiving care. Comments should acknowledge those exceptional students who are exceeding expectations for their stage in practice or who have particularly commendable attitudes, behaviours, knowledge or skills.

If the student is not meeting the required standards this should be highlighted as a development need. If there is a cause for concern or a fitness for practice issue that requires prompt action, an Action Plan should be instigated to address specific needs or concerns within a specified timeframe. In the event of this, seek guidance from the Academic Assessor and/or senior practice representative.

Academic Assessor responsibilities

Academic Assessors are Registered Nurses and are nominated for each part of the educational programme. The same Academic Assessor cannot contribute to the student assessment in consecutive parts. The Academic Assessor will work in partnership with the Practice Assessor to evaluate and recommend the student for progression for each part of the educational programme. The Academic Assessor will enable scheduled communication and collaboration with the Practice Assessor and this communication can take a variety of forms.

All communications/ additional feedback (not already recorded in the scheduled interviews) from the Practice Supervisors, Practice Assessor and Academic Assessor and other staff members needs to be recorded on the relevant pages in the PAD.

Guidance for using the PAD to Facilitate and Guide Practice Learning

Assessment criteria in the PAD are based on the NMC Essential skills clusters, progression criteria and standards for competence (NMC 2010). All Practice Assessors/Supervisors/other professionals who comment in this document should sign and give their details on the record page which can be found in the first section of this document.

Components of Assessment (see individual university guidance/regulations)

Professional Values: These are assessed and must be achieved by the end of each placement.

Essential Skills: These can be assessed in a range of placements but need to be assessed as achieved at least once by the end of the Part.

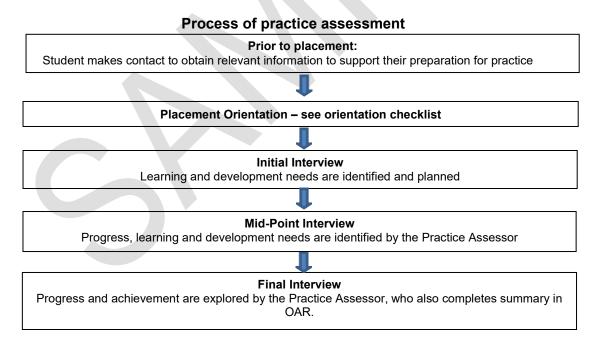

Episode of Care: This holistic assessment(s) facilitates and demonstrates the student's progress and must be achieved by the end of the Part.

Medicines Management: There is one assessment included in each part and each must be achieved by the end of the Part.

Patient/Service User/Carer Feedback Form: Feedback will be sought in relation to how the student cared for the person receiving care. This is not formally assessed, but will contribute to overall student feedback.

Recording Additional Experiences and Feedback: There are additional pages for the student to record reflections on their own learning and pages to record communication and additional feedback from all those supporting learning and assessment.

Ongoing Achievement Record: The OAR summarises overall achievements and provides a comprehensive record of student development and overall performance.

Further information / guidance is included in the university specific pages (overleaf) and in the Practice Assessment Document Guide

HEI GUIDLINES

Descriptors for Assessing Students in Practice

The NMC has identified skills and professional behaviours that a student must demonstrate by the first progression point:

These criteria cover:

- Works more independently, with less direct supervision, in a safe and increasingly confident manner.
- Demonstrates potential to work autonomously, making the most of opportunities to extend knowledge, skills and practice. (NMC 2010).

Practice Assessors are required to assess students at the level they are expected to achieve for their progression point. These descriptors should be used when assessing Professional Values, Essential Skills and the Episode of Care.

By the end of Part 2 the student needs to achieve all the Essential Skills, Professional Values and the Episode of Care Assessment

'Achieved' must be obtained in all three criteria by the student

Achieved	Knowledge and understanding	Professional attitude	Participation in care and practical skill
YES	Has a sound knowledge base and is able to provide the rationale to support safe and effective practice.	Is able to demonstrate positive engagement with patients/service users and colleagues and their own learning. Responds to situations with minimal assistance.	In commonly occurring situations, is competent in performing care and skills.
NO	Is only able to identify the essential knowledge base and needs to develop further understanding or has an inadequate knowledge base or demonstrates unsafe practice.	Is disengaged from the learning process and/or responds inappropriately to patients/service users and/or colleagues.	With supervision is not able to demonstrate safe practice and is unable to perform the activity and/or follow instructions despite repeated guidance.

Professional Values in Practice

Students are required to demonstrate high standards of professional conduct at all times during their placements. Students should work within legal frameworks, and be able to articulate the underpinning values of The Code (2015). Professional values expectations are reflected in the statements below.

Yes = Achieved, No = Not Achieved (Refer to Grade Descriptors on Page 7)

Professional attitude,	behaviour and respo	nsibility			
	Student Evidence / Comments	Achieved Mid-Point Yes/No	Initial/ Date	Achieved Final Yes/No	Initial/ Date (Final)
The student maintains confidentiality in accordance with the NMC code.					
2. The student is non-judgemental, respectful and courteous at all times when interacting with patents/carers/service users and all colleagues.					
3. The student maintains an appropriate professional attitude regarding punctuality and communicates appropriately if unable to attend placement.					
4. The student's personal presentation and dress code is in accordance with the organisation's uniform policy.			>		
5. The student maintains the person's privacy and dignity.					
6. The student demonstrates openness, trustworthiness and integrity.					
7. The student makes a consistent effort to engage in and reflect on the requisite standards of care and learning.					

Safe and compassional	te care				
	Student Evidence / Comments	Achieved Mid-Point Yes/No	Initial/ Date	Achieved Final Yes/No	Initial/ Date (Final)
8. The student is attentive, kind, compassionate and sensitive to the needs of others and promotes the autonomy, rights and choices of patients/service users.					
9. The student maintains consistent safe and person-centred practice.					
10. The student reports any concerns to the appropriate professional member of staff and exercises professional advocacy to safeguard human rights.					
11. The student demonstrates the ability to work more independently and to listen, seek clarification and carry out instructions safely in an increasingly confident manner.					
12. The student is able to recognise and work within the limitations of their own knowledge, skills and professional boundaries and understand that they are responsible for their own actions.					
13. The student manages appropriate and constructive relationships with members of the multidisciplinary team, patients/service users, families and carers, with the intent of building professional, caring relationships.					

Students can complete their evidence at any stage prior to the final interview. If there are any issues/areas for concern, these must be recorded in the Mid-Point or Final Interview as appropriate. 'Not Achieved' must trigger an Action Plan at the time of assessment and must be documented. The Action Plan template can be found on page 59

Placement 1: Mid-Point Interview

This discussion must take place half way through the placement

tudent's self-assessment/reflection on progress
eflect on your overall progression referring to your personal learning needs, professional values and essential kills. Identify your strengths and document areas for development.

Placement 1: Mid-Point Interview Ongoing learning and development needs

To be agreed between Practice Assessor and Student – sign and date all entries below

Following the Mid-Point interview the student is to identify their learning and development needs for the remainder of the placement and negotiate with their Practice Assessor how these will be achieved.			
Identify learning and development needs.	How will these be achieved?		
Student's Name:	Signature: Date:		
Practice Assessor name:	Signature: Date:		
Any outstanding learning and development needs a interview.	re to be discussed and documented at the final		

If specific concerns have been raised about the student's performance this should trigger an Action Plan at the time of assessment and should be documented. The action plan template can be found on page 59

Placement 1: Final Interview

This should take place towards the end of the placement

Student's self-assessment/reflection on progress
Reflect on your overall progression referring to your personal learning needs, professional values and essential skills. Identify your strengths and document areas for development.
Knowledge:
Skills:
Attitudes and values:
Practice Assessor's comments
Discuss with the student their self-assessment and comment on their progression using the criteria for
Assessment in Practice Descriptors, detailing evidence used to come to your decision.
Knowledge and Understanding:
Obitto
Skills:
Attitudes and values:

Please record any further comments on the next page

Professional Values in Practice

Students are required to demonstrate high standards of professional conduct at all times during their placements. Students should work within legal frameworks, and be able to articulate the underpinning values of The Code (2015). Professional values expectations are reflected in the statements below.

Yes = Achieved, No = Not Achieved (Refer to Grade Descriptors on Page 7)

Professional attitude,	Student Evidence / Comments	Achieved Mid-Point Yes/No	Initial/ Date	Achieved Final Yes/No	Initial/ Date (Final)
The student maintains confidentiality in accordance with the NMC code.				, sunt	
2. The student is non- judgemental, respectful and courteous at all times when interacting with patents/carers/service users and all colleagues.					
3. The student maintains an appropriate professional attitude regarding punctuality and communicates appropriately if unable to attend placement.					
4. The student's personal presentation and dress code is in accordance with the organisation's uniform policy.			>		
5. The student maintains the person's privacy and dignity.					
6. The student demonstrates openness, trustworthiness and integrity.					
7. The student makes a consistent effort to engage in and reflect on the requisite standards of care and learning.					

Safe and compassional	te care				
	Student Evidence / Comments	Achieved Mid-Point Yes/No	Initial/ Date	Achieved Final Yes/No	Initial/ Date (Final)
8. The student is attentive, kind, compassionate and sensitive to the needs of others and promotes the autonomy, rights and choices of patients/service users.					
9. The student maintains consistent safe and person-centred practice.					
10. The student reports any concerns to the appropriate professional member of staff and exercises professional advocacy to safeguard human rights.					
11. The student demonstrates the ability to work more independently and to listen, seek clarification and carry out instructions safely in an increasingly confident manner.					
12. The student is able to recognise and work within the limitations of their own knowledge, skills and professional boundaries and understand that they are responsible for their own actions.					
13. The student manages appropriate and constructive relationships with members of the multidisciplinary team, patients/service users, families and carers, with the intent of building professional, caring relationships.					

Students can complete their evidence at any stage prior to the final interview. If there are any issues/areas for concern, these must be recorded in the Mid-Point or Final Interview as appropriate. 'Not Achieved' must trigger an Action Plan at the time of assessment and must be documented. The Action Plan template can be found on page 59

Placement 1: Mid-Point Interview

This discussion must take place half way through the placement

Student's self-assessment/reflection on progress
Reflect on your overall progression referring to your personal learning needs, professional values and essential skills. Identify your strengths and document areas for development.

Assessment of Essential Skills

Assessment of Essential Skills is undertaken across the Part. These can be assessed in a range of placements but need to be assessed as Achieved (YES) at least once by the end of the Part. If an Essential Skill is assessed as Achieved (YES) early in the Part it is expected that the student maintains that level of competence and can be re-assessed in subsequent placements at the practice assessor's discretion.

The Grade Descriptors are 'Yes' (This skill has been achieved), 'No' (this skill has not been achieved). Refer to Grade Descriptors on page 7 for further details.

Assessment of Essential Skills

Skills Cluster I: Care, Compassion	n and Com	munication:						
People can trust the adult nursing process	student to	o provide care ba	sed on the	highest standar	rds, knowle	edge and compete	ence as par	rtners in the care
				YES = Achieved	J No = Not	Achieved		
	Ass	sessment 1	Ass	sessment 2	As	ssessment 3	A	ssessment 4
	Yes/No	Sign/Date	Yes/No	Sign/Date	Yes/No	Sign/Date	Yes/No	Sign/Date
Forms appropriate and constructive professional relationships with families and other carers.								
2. Uses professional support structures to learn from experience and make appropriate adjustments.								
People can trust the adult nursing when they are unable to meet the			on centred (care empowerin	g people to	o make choices al	bout how t	heir needs are met
3. Actively empowers people to be involved in the assessment and care planning process and determines people's preferences.								
People can trust the adult nursing	student t	o engage with the	em in a war	m, sensitive and	d compassi	ionate way.		
4.Considers with the person and their carers their capability for self-care.								
People can trust the adult nursing that are helpful, providing information						eds and concerns	, respondi	ng using skills
5. Uses strategies to enhance communication and remove barriers to effective communication minimising risk),						
to people from lack of or poor communication.								
COMMUNICATION.	4				,	1	J	i ·

				YES = Achieved	No = Not A	chieved		
	Asse	essment 1	Ass	essment 2	Assessment 3		Assessment 4	
	Yes/No	Sign/Date	Yes/No	Sign/Date	Yes/No	Sign/Date	Yes/No	Sign/Date
People can trust the adult nursing s					order to all	ow an informed ch	oice prior to	any intervention
and that their rights in decision make	ing and cons	ent will be respect	ted and uphe	eld.				
6. Ensures the meaning of								
consent to treatment and care is								
understood by the person or								
service users and understands								
restrictions relating to specific client groups.								
Skills Cluster II: Organisational A	spects of Ca	are						
oo oracio in organicational P		w. •						
People can trust the adult nursin	g student to	treat them as pa	rtners and v	vork with them to	make a ho	listic and system	atic assess	ment of their
needs: to develop a personalised								
being, minimising risk of harm ar								
7. Accurately undertakes and								
records a baseline assessment					, v			
of weight, height, temperature,								
pulse, respiration and blood								
pressure using manual and								
electronic devices and								
understands and responds to								
abnormal findings.								
8. Understands the concept of								
public health and the benefits of								
healthy lifestyles and the potential								
risks and indicators of various								
lifestyles or behaviours, for								
example, substance misuse,								
smoking, obesity. 9. Collects and interprets routine								
data, under supervision, related to								
the assessment and planning of								
care from a variety of sources e.g.								
urinalysis.								

				YES = Achieved	No = Not	Achieved		
	Ass	sessment 1	Assessment 2		Assessment 3		Assessment 4	
	Yes/No	Sign/Date	Yes/No	Sign/Date	Yes/No	Sign/Date	Yes/No	Sign/Date
10. Undertakes the assessment of physical, emotional, psychological, social, cultural and spiritual needs, including risk factors by working with the person and records, shares and responds to clear indicators and signs e.g. Pain, assessment of anxiety.								
11. Where relevant, applies knowledge of age and condition-related anatomy, physiology and development when caring for people.								
People can trust the adult nursing s plan.	tudent to d	eliver nursing int	ervention	s and evaluate the	ir effectiv	eness against the	agreed as	ssessment and care
12. Prepares people for clinical interventions as per local policy.								
People can trust the adult nursing s	tudent to s	afeguard childrer	n and adul	ts from vulnerable	situation	s and support and	protect	them from harm.
13. Documents concerns and information about people who are in vulnerable situations.								
People can trust the adult nursing s	tudent to re	espond to their fe	edback aı	nd a wide range of	other so	urces to learn, dev	elop and	improve services.
14. Responds appropriately when people want to complain, providing assistance and support.								
15. Uses supervision and other forms of reflective learning to make effective use of feedback from colleagues and managers.								

				YES = Achieved	No = Not	Achieved		
	As	sessment 1	Assessment 2		Assessment 3		Assessment 4	
	Yes/No	Sign/Date	Yes/No	Sign/Date	Yes/No	Sign/Date	Yes/No	Sign/Date
People can trust the adult nursing s	tudent to	promote continuit	y when th	eir care is to be tra	ansferred	to another service	or person	
16. Assists in preparing people and carers for transfer and transition through effective dialogue and accurate information and reports people's concerns. 17. Assists in the preparation of								
records and reports to facilitate safe and effective transfer.								
People can trust the adult nursing s	tudent to	be an autonomous	s and con	fident member of t	the multi-	disciplinary or mul	ti agency	team and to
inspire confidence in others.							_	
18. Communicates with colleagues verbally, face-to-face and by telephone, and in writing and electronically in a way that the meaning is clear, and checks that the communication has been fully understood.								
People can trust the adult nursing s 19. Demonstrates professional	tudent to	work safely under	pressure	and maintain the	safety of s	service users at all	times.	
commitment by working flexibly to meet service needs to enable quality care to be delivered.								
20. Uses supervision as a means of developing strategies for managing own stress and for working safely and effectively.								
21. Adheres to safety policies when working in the community and in people's home e.g. lone worker policy.

Skills Cluster IV: Nutrition and Fluid				4.414			-1-1-1-4-1	
People can trust the adult nursing s 34. Under supervision helps people	student to a	assist them to che	oose a diei	t that provides an	adequate	nutritional and fil	ila intake.	
to choose healthy food and fluids in								
keeping with their personal								
preferences, circumstances and								
cultural needs.	1		1					
35. Accurately monitors dietary and								
fluid intakes and completes relevant								
documentation.								
36. Supports people who need to								
adhere to specific dietary and fluid								
regimes maintaining independence								
and dignity when possible.								
37. Identifies people who are unable								
to or have difficulty in eating or								
drinking and reports this to others to								
ensure adequate nutrition and fluid								
intake is provided.								
People can trust the adult nursing s	student to a	assess and monit	or their nu	ıtritional status an	id in partn	ership, formulate	an effectiv	e plan of care.
38. Takes and records accurate								
measurements of weight, height,								
length and body mass index and								
other appropriate measurements of								
nutritional status.								
39. Assesses baseline nutritional								
requirements for healthy people								
relating to factors such as age and								
mobility and formulates an effective								
care plan.		Y

the safe and effective management								
of medicine.								
People can trust the adult nursing s	tudent to	demonstrate unde	erstanding	and knowledge to	supply a	and administer via	a patient (group directive.
55. Demonstrates knowledge of what								_
a patient group directive is and who								
can use them.								

Part 2 Episode of Care

This assessment must be completed by the end of Part 2 with less direct supervision from the student's Practice Assessor during a specific episode of care.

Guidelines

The Practice Assessor and student will identify an appropriate episode of direct care involving meeting the needs of a group of service users. e.g. assessing, planning, delivering and evaluating the care of a group of patients/service users.

The aim of this assessment is to demonstrate the student's progression in the following four competency domains in the context of the relevant field of nursing:

- Professional values
- Communication and interpersonal skills
- Nursing practice and decision-making
- Leadership, management and team working

Learning outcomes

- 1. The student provides safe, person-centred care in a confident manner, within an appropriate timeframe in order to demonstrate the knowledge, skills, attitudes and behaviours required.
- 2. The student demonstrates that they have maintained appropriate professional values, expected attitudes and behaviours during the episode of care.
- 3. The student demonstrates their potential to work autonomously, making the most of opportunities to extend knowledge, skills and practice.

Student reflection on an episode of care	
Within your reflection, demonstrate how you have achieved learning outcomes 1 – 3	What did you do well?
Describe the episode of care and how you assessed, planned, delivered and evaluated patient care.	
	What would you have done differently?
	What learning from this episode of care could be transferred to other areas of practice?

Practice Assessor feedback		
		sion of the episode of care, please assess and comment on the following:
Domain YES = Acnie	vea No = Level	Not Achieved (Refer to Grade Descriptors on Page 7) Comments
Professional values	Level	Comments
Acts in a manner that is attentive, kind, sensitive,		
compassionate and non-discriminatory, that values		
diversity and acts within professional boundaries.		
, ,		
Communication and interpersonal skills		
Demonstrates the ability to communicate		
effectively with service users in vulnerable situations, ensuring their dignity is maintained at		
all times.		
Nursing practice and decision making		
Demonstrates safe, compassionate, person-		
centred, evidence based care that respects and maintains dignity and human rights.		
maintains dignity and numan rights.		
Leadership, management, team working		
Uses effective management skills to organise work		
efficiently. Prioritises and manages work load		
effectively.		
If any of the Domains are 'Not Achiev	ed' this v	will require a re-assessment and the academic assessor must be informed
Student's signature:		Date:

Part 2 Medicines Management

This assessment must be completed by the end of Part 2 where the student safely administers medicines to a group of patients/service users or a caseload of patients/service users in community settings under the supervision of the Practice Assessor.

During Part 2 the student should be developing their knowledge, skills and competencies in relation to the safe administration of medicines. This assessment should normally be undertaken with a small group of patients/service users or caseload.

The student must be allowed a number of practice opportunities to administer medicines under supervision prior to this assessment.

The student must work within the legal and ethical frameworks that underpin safe and effective medicines management and work within national and local policies

Regulatory requirements: Standards for medicines management (NMC, 2007).the code (NMC, 2015)

The aim of this assessment is to demonstrate the student's knowledge and competence in administering medications safely.

Learning outcomes

- 1. The student is able to apply knowledge of pharmacology, how medicines act and interact in the systems of the body, and their therapeutic action.
- 2. The student is able to prepare medications where necessary, safely and effectively administer these via common routes and maintains accurate records
- 3. The student is able to safely and accurately perform medicines calculations.
- 4. The student is able to demonstrate that they have maintained appropriate professional values, expected attitudes and behaviours during the administration of medicines.
- 5. The student is able to maintain safety and safeguard the patient from harm.

YES = A	Achieved I	No = Not Achieved	
Competency	Level	Competency	Level
Is aware of the patient/service user's plan of care and the reason for medication. Explains to the assessor.		7. Prepares medication safely. Checks expiry date. Notes any special instructions/contraindications.	
Communicates appropriately with the patient/service user. Provides clear and accurate information and checks understanding.		Calculates doses accurately and safely. Demonstrates to assessor the component parts of the calculation. Minimum of 3 calculations undertaken.	
Understands safe storage of medications in the care environment.		9. Checks and confirms the patient/service user's identity. (ID band or other confirmation if in own home)	
4. Maintains effective hygiene/infection control throughout.		Administers or supervises self-administration safely under direct supervision. Verifies that oral medication has been swallowed.	
Checks prescription thoroughly. Right patient/service user Right medication		11. Describes/demonstrates the procedure in the event of non-compliance.12. Safely utilises and disposes of equipment.	
 Right time/Date/Valid period Right dose/last dose Right route/method Special instructions 		Maintains accurate records. Records, signs and dates when safely administered	
		14. Monitors effects and is aware of common side effects and how these are managed.	
Checks for allergies Asks patient/service user.		15. Uses appropriate sources of information e.g. British National Formulary	
Checks prescription chart or identification band		16. Offers patient /service user further support/advice.
